

AMAN KUMAR

.NET Developer | ASP.NET Core | Azure | SQL Server

+91-9266904998 • amankumardz0@gmail.com • Gurugram, India • linkedin.com/in/aman-kumar-11647b17a

PROFESSIONAL SUMMARY

Results-driven .NET Developer with 4+ years of experience architecting scalable Web APIs, enterprise HRMS/ERP systems, and multi-tenant SaaS platforms. Proven track record modernizing legacy applications (Windows Forms to web), delivering Azure-hosted solutions with CI/CD automation, and leveraging AI-assisted development to accelerate delivery. Recognized as **Top Performer (2025)** for leading .NET 8 modernization initiatives that improved API performance by 35% and slashed deployment time by 40%.

TECHNICAL SKILLS

Languages & Frameworks: C#, .NET 6/7/8, ASP.NET Core MVC, Web API, LINQ, Async/Await, EF Core

Architecture: Clean Architecture, SOLID Principles, Repository Pattern, Dependency Injection, RESTful APIs

Databases: SQL Server, Oracle, Azure SQL, Stored Procedures, Query Optimization, Indexing

Cloud & DevOps: Azure App Services, Azure Functions, Azure SQL, Azure VM, Azure Boards, Azure DevOps CI/CD

Tools & Productivity: Git, IIS, Docker, Worker Services, Serilog/NLog, AI-Assisted Development (Copilot)

Frontend: JavaScript, jQuery, AJAX, HTML5, CSS3, Angular (Basic), React Native (Basic)

WORK EXPERIENCE

Software Engineer (.NET) | **Inteligencia**

Dec 2025 – Present | Gurugram, India

- Spearheaded migration of a legacy Windows Forms application to a modern, web-based ASP.NET Core architecture, improving maintainability, scalability, and enabling seamless Azure App Service deployment.
- Delivered end-to-end feature development for TeamEd, an NTS election management platform, building robust APIs and workflows that ensured high availability under peak load.
- Implemented and managed Azure DevOps CI/CD pipelines across Azure VM and App Service environments, eliminating manual release steps and reducing deployment errors.
- Designed optimized data models and queries on Azure SQL Server, improving data retrieval performance and ensuring secure, scalable operations.
- Leveraged AI-assisted development tools (GitHub Copilot) to accelerate feature delivery by ~20%, reduce defect rates, and enforce consistent code quality standards.
- Tracked sprint progress and managed backlogs on Azure Boards, ensuring on-time delivery aligned with stakeholder requirements.

Tech Stack: .NET 8, C#, ASP.NET Core, Web API, Azure App Services, Azure VM, Azure SQL Server, Azure DevOps, Azure Boards, GitHub Copilot

Software Developer | **TimeWatch Infocom Pvt. Ltd.**

Nov 2024 – Nov 2025 | Gurugram, India

- Migrated core VMS and Access Control modules to .NET 8, boosting API performance by 35% and reducing memory utilization by 30%.
- Built fault-tolerant worker services for real-time biometric device synchronization across multi-site deployments, elevating system uptime from 92% to 99.5%.
- Integrated multi-modal biometric SDKs (Face Recognition, Fingerprint, RFID) enabling real-time attendance tracking, identity authentication, and access control.
- Automated CI/CD pipelines via Azure DevOps, cutting deployment time by 40% and ensuring consistent, reliable releases.
- Reduced mean time to resolution (MTTR) by 30% through proactive SQL Server query optimization, indexing improvements, and production monitoring.

Tech Stack: .NET 8, ASP.NET Core, Web API, Worker Services, SQL Server, Azure DevOps, IIS, Biometric SDK

Software Developer (.NET) | **Kellton Tech Solutions Pvt. Ltd.**

Feb 2022 – Sep 2024 | Gurugram, India

Hathway Broadband & DTH Platform

- Developed and maintained 30+ MVC and RESTful API modules — self-care portals, plan management, customer onboarding, and payment workflows — supporting millions of subscribers.
- Reduced API response times by 25% through targeted stored procedure tuning, composite indexing, and response caching strategies.
- Integrated and maintained secure payment gateway workflows processing thousands of daily transactions; ensured fault tolerance and PCI-DSS-aligned flows.
- Resolved production incidents by optimizing SQL queries and enhancing API error handling, reducing customer-reported issues by 40%.

HRMS2 – Karnataka State Government

- Designed and delivered HRMS modules — Leave, Payroll, Transfer, Probation, and Suspension — using .NET Core and Oracle, serving 10,000+ government employees.
- Engineered 40+ optimized REST APIs and stored procedures for high-volume payroll datasets, improving processing speed by 30%.
- Architected solution using Clean Architecture, SOLID principles, and efficient ORM patterns, enabling long-term maintainability and extensibility.

Tech Stack: *C#, ASP.NET Core MVC, Web API, SQL Server, Oracle, LINQ, EF Core, IIS*

CERTIFICATIONS

- **Complete Guide to ASP.NET Core MVC (.NET 8)** — MVC architecture, Razor Views, EF Core, JWT authentication, and production deployment.
- **RESTful Web API – The Complete Guide (.NET 7)** — API versioning, JWT authentication, Dependency Injection, and REST best practices.
- **AZ-204: Developing Solutions for Microsoft Azure** — Azure App Services, Azure Functions, Azure Storage, Cosmos DB, authentication, and cloud-native solution development. (Udemy, Jun 2024)

EDUCATION

B.Tech in Computer Science

2022

Dronacharya College of Engineering, Greater Noida | Score: 71%
